Health Care for All Minnesota HCAMN

HCAMN is a non-profit organization dedicated to promoting affordable, high quality healthcare for every Minnesotan through advocacy, education, and community organizing.

Healthcare for People, not for Profit

The Affordable Care Act (ACA) passed at the federal level has improved the accessibility to healthcare. Unfortunately it has failed in addressing the costly healthcare system that is in place. Going forward, we need to preserve important patient protections while reforming how we pay for healthcare.

The free-market / profit based approach doesn't work for healthcare, costs continue to rise and more people can't afford to pay. Over 45,000 deaths occur every year because people cannot afford healthcare.[1]

The growth in national health expenditures continues to consume more of our GDP; as of 2015 it was 17.8% of GDP up from 11.4% in 1990.[2] United States per capita healthcare spending ($9,024) is more than twice the average ($3,620) of other developed countries.[3]

31% of every healthcare dollar is spent on non-healthcare[4]: administration, advertising, high CEO / management salaries, profit making and other wasteful activities.

HCAMN's Goals

Unify a state based movement of committed individuals and organizations to:

1. Educate and engage Minnesotans on the issues of healthcare financing reform
2. Build a base of support for reform, connecting individuals and groups
3. Work with legislators to pass and implement health care financing reform for Minnesota

Join the Movement - MN Can Do Healthcare Better

Signup to stay educated and engaged

Spread the word and educate others

Volunteer and / or donate

Develop community based groups
